FEDERAL PERSONNEL IN EXECUTIVE BRANCH, APRIL-MAY 1954, AND PAY, MARCH-APRIL 1954

NOTE WITH REFERENCE TO PERSONAL SERVICE EXPENDITURE FIGURES

It should be noted that the latest expenditure figures for personal service shown in table I of this report are for the month of April 1954 and that they are compared with personal service expenditure figures for the month of March 1954, whereas the latest employment figures covered in this report are for the month of May 1954 and are compared with the month of April 1954. This lag in personal service expenditure figures is necessary in order that actual expenditures may be reported.

(Figures in the following report are compiled from signed official personnel reports by the various agencies and departments of the Federal Government. Table I shows total personnel employed inside and outside continental United States, and pay, by agency. Table II shows personnel employed inside continental United States. Table III shows personnel employed outside continental United States. Table IV gives by agency the industrial workers employed by the Federal Government. For purposes of comparison, figures for the previous month are shown in adjoining columns. Table VI is a separated report on foreign nationals who are not counted in tables I, II, III, IV, or V.)

STATEMENT BY SENATOR HARRY F. BYRD (D. VA.) CHAIRMAN OF THE JOINT COMMITTEE ON REDUCTION OF NONESSENTIAL FEDERAL EXPENDITURES, in connection with the monthly report on federal personnel and pay for June 1954. For release in afternoon papers, Friday, July 30, 1954

Executive agencies of the Federal Government reported regular civilian employment in the month of June totaling 2,335,025. This was a net increase of 4,516 as compared with employment reported for the preceding month of May.

This was the first net increase reported since July 1952. In the 22 consecutive months through May 1954 the aggregate decrease had been 271,294.

June marked the end of fiscal year 1954. In that fiscal year, which began July 1, 1953, the total decrease was 134,615 from 2,469,640 in June 1953 to 2,335,025 through June 1954. Civilian employment as reported by the executive agencies of the Federal Government, by months, in fiscal year 1954 follows:

Month	Employment	Increase	Decrease
July 1953	2,454,714	--	14,926
August	2,431,430	--	23,284
September	2,401,810	--	29,620
October	2,372,745	--	29,065
November	2,367,330	--	5,415
December	2,357,294	--	10,036
January 1954	2,346,892	--	10,402
February	2,340,962	--	5,930
March	2,340,137	--	825
April	2,335,605	--	4,532
May	2,330,509	--	5,096
June	2,335,025	4,516	--

All of the June increase was in civilian agencies except for an increase in civilian employment by the Air Force. Total employment in civilian agencies during the month of June was 1,186,199. This was an increase of 7,583 over the 1,178,616 reported in May. Total employment in the military agencies in June was 1,148,826. This was a net decrease of 3,067 as compared with 1,151,893 in May.

Civilian agencies reporting the larger increases in June were Agriculture Department with an increase of 5,120, Post Office Department with an increase of 2,418, Interior Department with an increase of 2,186 and Justice Department with an increase of 998. Among these departments were the Interior and Agriculture Departments which usually report seasonal increases in June. A year ago the Interior Department reported a June increase of 881 and the Agriculture Department reported a June increase of 6,473.

While the Air Force reported an increase of 1,727 in civilian employment during June, the Army reported a decrease of 2,471 and the Navy reported a decrease of 2,322. The Office of the Secretary of Defense showed a decrease of 1 during the month. Civilian employment in the defense agencies showed a net decrease of 3,067.
